

# DAILY NEVADA STATE JOURNAL.

VOL. 6.

RENO, WASHOE COUNTY, NEVADA, TUESDAY MORNING, DECEMBER 12, 1876.

NO. 60.

GOSPEL FROM THE NATIONAL GAZETTE.

Soirees and receptions are the order of the day. Mrs. Taft and Miss Cameron each receive on Wednesday.

On dit, that George C. Gorham will at an early day lead to the hymeneal altar a young lady.

Mrs. Gaines, now nearly 70 years of age, is in the city, giving active and vigorous attention to the immense property interests which have claimed the attention of the Courts during the past thirty years.

Mrs. Grant is held in high esteem, not only by those ladies of Washington who meet her socially, but those of society generally who come in social contact with the ladies of official circles.

Mrs. and Miss Gwin will spend the Winter in Washington.

Senator Conkling is believed to be opposed to counting the votes of the disputed States for Hayes, but has not yet committed himself.

There are three or four lady correspondents in attendance at the capital.

Senators Blaine, Conkling, Booth and Jones are among those who so far have not participated in the Senatorial debates.

Senators Shaton of Nevada and Kelly of Oregon and Congressman Wigginton of California have not yet arrived in Washington.

It is rumored that Governor Tilden is betrothed to Miss Gwin of California, but as the newspapers have ruthlessly given him away in marriage about once a week since the election, his matrimonial and Presidential prospects appear to be equally uncertain.

## PERSONAL.

Daniel Webster's widow is still living in New York, aged 85.

Charles L. Hemenway, a son of Mrs. Hemenway, the poetess, died recently at Lucca, Italy.

The late Abdul Aziz, to vary the twit of his harem, once bought 100,000 parrots.

An English writer, speaking of Elihu Burritt, says he looks as if he had just dropped out of the Old Testament.

Mr. Peter Cooper and Mr. Samuel J. Tilden dined together at Mr. Edward Cooper's, son of the former, in New York, on Tuesday evening.

The woman whom Lord Rosebery is to marry, Miss Clarendon de Rothschild, has, it is said, a fortune of \$25,000,000.

J. R. Randall, editor of the Atlanta Constitution, is the author of "Maryland, My Maryland."

Mr. Gladstone is to write for Horner's Monthly an explanation of his attitude to America during the war.

George Francis Train says the only hope for the country to escape revolution is by electing him to the Presidency.

It is said that an admiral has lately bequeathed to M. Gambetta a fortune of between three and four millions of francs.

Abraham Lincoln voted the straight Republican ticket in 1860, after cutting off the electoral candidates.

Mrs. Kimberly, the woman who has a stock farm in Iowa, has taken over \$10,000 worth of premiums this Fall on her stock.

John Stevenson writes to the Glasgow News that his grand-uncle, Robert Fulton, instead of being born in Pennsylvania of Irish parents, as his American biographers say, was Scotch, and was born in Belfast, in Ayrshire.

The Princess Carolina of Denmark was 83 years of age on the 21st of October last. She is the oldest member of the royal family of England. This venerable lady is granddaughter of the unfortunate Queen Caroline Matilda, sister to George III., and was married to the King of Denmark, Christian VII., but subsequently divorced.

Mrs. Polk, the widow of the ex-President, now lives in Nashville, and takes a lively interest in affairs of State. Her husband's tomb is laid in the lawn in front of her house. It is a solid block of gray stone, under a flat entablature of the same stone, raised above by four stone pillars.

Cardinal Antonelli is believed to have left about \$30,000,000 francs, 10,000,000 francs of which, it is said, is invested in England. It is said that when the Cardinal's death was announced to the Pope he burst into prayer for the soul of his departed Minister. He wanted to look upon him again in death, but was dissuaded.

## NEWS OF THE MORNING.

In accordance with the recommendation of the Republican National Committee, a salute of 185 guns will be fired in Chicago to-day at noon, in honor of the election of Hayes and Wheeler.

The Republicans of California will maintain their present organization. There are now 253 clubs in the State, and it is said this number will be swelled to 400.

The alleged election frauds in San Francisco will be investigated in a couple of weeks.

Breck, Secretary of State of California, intends issuing Wiggington, a certificate of election as Congress man from the Fourth District, on the revised returns from Monterey county. Bacheo, Republican, will contest.

The detailed estimates for appropriations for the next fiscal year have been furnished. Nevada is allowed \$94,000 more for the Carson Mint than last year. For surveying public land \$45,000. For Indian Service \$35,000.

## HOW IT WORKS.

The country is not growing rich as fast as it was, but it has got much newer a specie basis in the last four years. For instance, the State of Massachusetts, in 1872, showed an apparent gain of taxable property of nearly two hundred million over 1871, which was about a thousand dollars per capita of the population. It continued to gain slowly until this year, when the assessors report a loss of \$71,200,102, which wipes out all the increase of the few years previous. Of this amount forty-eight million were in real estate. Of the loss sixty-six million is in the cities, and forty-four million in Boston, where it is principally due to the heavy depreciation in suburban real estate. Only three of the cities in the State show a gain, and that a very small one. Thus we see a nominal shrinkage of property, which has extended over the entire country; but in reality we are no poorer than we were—the property remains, but at a lower valuation.

**THE GREAT CYCLONE.**—The *Official Gazette*, of Calcutta, publishes the report of the Lieutenant-Governor of Bengal regarding the extent and destructiveness of the late cyclone: he represents the great calamity in more deplorable light than accounts heretofore received, and says the loss of life was 251,000—over a quarter of a million people swept away in the course of two days.

History, we think, records no such terrible visitation of the elements upon any people as this—at least, not modern history. The country thus desolated lies on either side of the Ganges, being exceedingly low and flat, but very productive, and supports an immense population.

**THE CULTURE IN INDIA.**—The introduction and progress of tea culture in British India form a subject of interest for those who are curious to watch the shifting of trade from one nation to another. In 1871 Great Britain imported 18,000,000 pounds of tea from India, which was far in excess of previous importations. Last year there was a continuation of the increase, and the quantity rose to 25,000,000 pounds, valued at nearly \$11,000,000. This industry has been carried on, in a smaller way, for a half century, and more, but has made its greatest progress during the past ten years.

The steady decline in gold and improvement in silver are worthy of attention. As gold comes down, legal tenders of course go up, and thus the paper currency of the Atlantic States is gradually approaching par. A peaceful solution of the Presidential question, and the continued determination to carry out the Resumption Act, will hasten the result much sooner than most people expect.

Miss Jean Ingelow is shortly described as a somewhat stout, a mild-mannered and agreeable woman, with a good and intelligent, but not beautiful face.

Hon. Alexander H. Stephens visited his friend General Toombs, at Washington, Ga., last week.

**TRADE DOLLARS.**—Some of our contemporaries, say the San Francisco *Bulletin*, wonder why brokers do not send East for consignments of Trade Dollars, seeing that they are being quoted in New York at 93 asked, while here it is next to impossible to get them under par, and one of the principal factors decline to sell for less than 1 per cent. premium. The thing does look a little queer on its face, but it is probably susceptible of explanation. In the first place the New York quotations are about ten days old, when brokers were offering only 98 here. But even that difference afforded a good margin for profit. The New York quotation is always largely nominal. There cannot be a great many trade dollars in that market. Only a comparative few have ever been coined at the Philadelphia Mint, and orders were issued to stop such coinage entirely at that Mint from July 1st. A few have since been coined there, but from bullion previously deposited for that purpose, which was absorbed over two months ago. As no trade dollars have been sent to New York from San Francisco, the supply there must be limited and the quotation a myth.

**ONE OF MANY.**—The man who could have once purchased the site of Detroit for a shot-gun was in town yesterday. He was relating the circumstances at the City Hall, when he was asked why he didn't close the bargain. "Well, I had a chance to trade the gun for six bear-traps," he replied. "I suppose I'd have made better if I had taken the land, but I tell you there used to be a heap of money in bear-traps." "Did you catch many bears?" inquired another of the group. "Not a consumed one." "Then what good did your traps do you?" "I traded 'em for a snow." "And the snow?" "She sank." "And then you realized nothing at all?" "Nothing; but when a fellow's taste runs to bear-traps and old snows, he won't buy land. I'm not sorry, sir—not a bit. When I own anything it must be something that I can take an interest in."—*Detroit Free Press*.

MILLENNIAL AWARD

GRAND TRIUMPH

—FOR—

WEBER PIANOS

FIRST PREMIUM

OVER ALL

AMERICAN AND FOREIGN

MANUFACTURES

Copy of Telegram received by Sherman &amp; Hyde:

NEW YORK, Sept. 29, 1876.—Received the high award for sympathetic, pure, and rich tone, combined with greatest power, as shown in the five styles—Grand, Square and Upright Pianos—which show in all general solidity in their construction, a pliant and easy touch, which the same time answers promptly to the requirements, together with a sense of workmanship.

A. WIDMER,

These famous Pianos are for sale by

SHERMAN &amp; HYDE,

Corner Kearny and Sutter Streets, San Francisco.

Never before in the history of piano forte manufacture has an instrument risen so rapidly to popular favor.

Its intrinsic merit and decided superiority over all others has caused even musicians and critics of note to adopt and recommend it.

Say, "I shall take every opportunity to recommend and praise your instruments."

Mrs. Kelling says, "Your Pianos are my choice for the concert room and my own house."

Lucie says, "Your uprights are extraordinary instruments, and deserve their great popularity."

Father says, "I have used the Piano of every celebrated maker, but give yours the preference over all."

Grand says, "Your Pianos astonish me. I have never seen any Piano which equal yours!"

Weill says, "Madame Parcier called your Pianos the finest in the United States. I fully endorse that opinion. They have no rival."
